

PNT Xe

PNT Test Precision Made Accessible

INTRODUCING PNT Xe

PNT Xe is making high-fidelity simulation available for every workstation, every engineer, and every project phase. PNT Xe is designed for rack mounting, desk mounting, and portability. With fast deployment and a simple but powerful interface, it gives you all the tools to speed up onboarding, simplify system configuration, and accelerate scenario creation. Take advantage of the world's leading simulation architecture at a fraction of the cost.

Capabilities

Signal Generation

Multi-constellation, dual frequency
e.g. L1+L5 / L1+L2
Pseudorange Accuracy 5 mm RMS

Signal Quality

Spurious (Max) -182 dBW
Harmonics (Max) -40 dBc
Phase Noise (Max) 0.02 Rad RMS
Frequency stability $\pm 5 \times 10^{-10}$ per day

Testing Options

Integration Testing
Hardware-in-the-loop
Production Testing

Production Line Testing

From defense to space to automotive to personal devices, production line testing is a critical stage in a product lifecycle. PNT Xe has been designed for all types of production line:

- 2U rack compatibility
- Space-saving desk mount
- Easy portability and quick setup
- Intuitive tool for scenario creation and execution
- Support for all current GNSS signals

Integration Testing

Efficient and effective integration of GNSS into the test environment is at the core of most PNT-enabled product development. PNT Xe offers key enablers and capabilities:

- Flexible configuration
- Unrivaled realism and consistency
- Simple, low latency integration into HIL test setups
- Accessible price for expanded deployment
- Low onboarding overhead with simple scenario generation
- Eliminate the risk of downtime with robust, proven architecture

About Spirent Communications

Spirent Communications (LSE: SPT) is a global leader with deep expertise and decades of experience in testing, assurance, analytics and security, serving developers, service providers, and enterprise networks. We help bring clarity to increasingly complex technological and business challenges. Spirent's customers have made a promise to their customers to deliver superior performance. Spirent assures that those promises are fulfilled. For more information visit: www.spirent.com
